Nabin Chaulagain

Information Technology student · Founder, Tivro Technologies

nabin.chaulagain@atlantisuniversity.edu Hollywood, Florida

github.com/nabinchaulagain-nepal

SUMMARY

Information Technology student specialising in cloud infrastructure and virtualization, with hands-on experience across AWS, Azure and Google Cloud. Founder and operator of several technology and media ventures, which has meant building and running real systems rather than only studying them: provisioning cloud environments, managing small engineering teams, and taking products from concept to release.

EDUCATION

B.S. Information Technology

Expected 2028

Atlantis University · Hollywood, Florida

- Coursework in cloud virtualization (IaaS), cloud network design, identity and access management, and cloud storage and automation.
- Built and operated infrastructure across AWS, Microsoft Azure and Google Cloud as part of coursework, including VPC and VNet design, IAM policy authoring, and infrastructure automation.

EXPERIENCE

Founder and Chief Executive Officer

Present

Tivro Technologies Pvt. Ltd.

- Founded and lead the parent technology company, setting product direction and overseeing engineering delivery.
- Direct a distributed engineering team across backend, frontend and infrastructure, working through a CTO and functional leads.

- Own the cloud infrastructure decisions for the group's products, including hosting, identity and deployment.

Founder
Present

Two Brothers Media Pvt. Ltd.

- Founded the media group holding Hills Production, HilluMillu and the Redflie streaming platform.
- Provide founder-level oversight of strategy and structure while day-to-day operations are run by the group's CEO and CTO.
- Established the technical platform behind Redflie, a streaming and archive service.

Founder and Chairman
Present

HilluMillu

- Founded a children's educational content brand, building original character IP and an animated series.
- Coordinate a production team spanning writing, animation, editing and distribution.

Chairman, Director and Founder
Present

Hills Production Pvt. Ltd.

- Founded a music and cultural content company rooted in Eastern Nepal, repositioned as a talent discovery platform.

PROJECTS

Systo
In development

Self-serve AI tooling for small business owners

- Leading product definition for an AI service aimed at small business operators, using convenience stores and fuel retail as the reference case.
- Working with a small team across backend, security and testing.

CaptionAI
Academic research

Atlantis University · supervised by Prof. Rodolfo Capdevilla

- Research project on automated captioning, conducted under faculty supervision.

TECHNICAL SKILLS

Cloud platforms	Amazon Web Services, Microsoft Azure, Google Cloud Platform
Infrastructure	VPC and VNet design, subnetting and CIDR planning, VPN and peering, load balancing
Virtualization	Oracle VirtualBox, Microsoft Hyper-V, appliance export and import, snapshots and clones
Security and identity	IAM policy authoring, role-based access control, security groups and network ACLs, key management
Automation	Bash scripting, AWS CLI, infrastructure as code concepts, CI/CD pipeline design
Operating systems	Linux (Ubuntu Server), Windows Server, macOS
Tools	Git and GitHub, SSH and key-based authentication, Markdown documentation

BACKGROUND

Before moving into technology, worked in theatre with Kalalaya Theater and in writing, publishing opinion pieces and articles in Nepali. Produced digital educational content for a general audience. Originally from Itahari, Eastern Nepal; based in Hollywood, Florida.

Last updated October 2026.
